DETAILED ACTION

Allowable Subject Matter

1. Claims 9-16 and 23-26 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Regarding claim 9, the references teach all limitations of the claim except having one of the nodes calculate a measure of the degree to which it comprises an advantaged node; having an advantaged node increase one or more of the metrics of a plurality of pathways through the node entered into its routing table to form an updated routing table as a function of the measure of the degree to which it comprises an advantaged node.

Regarding claim 13, the references teach all limitations of the claim except having one or more of the nodes check to determine if they comprise partially disadvantaged nodes; having a partially disadvantaged node increase one or more of the metrics of a plurality of routing pathways through the node entered into a routing table in order to discourage all but essential traffic through the node and form an updated routing table.

Regarding claim 23, the references teach all limitations of the claim except having one or more of the nodes check to determine if they comprise partially disadvantaged nodes; having one or more of the nodes check to determine if they comprise advantaged nodes; having an advantaged node increase one or more of the metrics of a plurality of routing pathways through the advantaged node entered into a routing table by a first amount in order to discourage traffic through the node and form a first updated routing table; having a partially disadvantaged node increase one or more of the metrics of a plurality of routing pathways through the partially disadvantaged node entered into a routing table by a second amount in order to

Art Unit: 2464

discourage all but essential traffic through the partially disadvantaged node and form a second updated routing table.

This taken with other limitations of the dependent claims is considered novel and non-obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
